## Determination of Patent Term Adjustment under 35 U.S.C. 154 (b) (application filed on or after May 29, 2000)

The patent term adjustment to date is 47 days. If the issue fee is paid on the date that is three months after the mailing date of this notice and the patent issues on the Tuesday before the date that is 28 weeks (six and a half months) after the mailing date of this notice, the term adjustment will be 47 days.

If a continued prosecution application (CPA) was filed in the above-identified application, the filing date that determines patent term adjustment is the filing date of the most recent CPA.

Applicant will be able to obtain more detailed information by accessing the Patent Application Information Retrieval (PAIR) system. (<http://pair.uspto.gov>)

Any questions regarding the patent term extension or adjustment determination should be directed to the Office of Patent Legal Administration at (703)305-1383.

## Notice of Fee Increase on January 1, 2003

If a reply to a "Notice of Allowance and Fee(s) Due" is filed in the Office on or after January 1, 2003, then the amount due will be higher than that set forth in the "Notice of Allowance and Fee(s) Due" since there will be an increase in fees effective on January 1, 2003. See Revision of Patent and Trademark Fees for Fiscal Year 2003; Final Rule, 67 Fed. Reg. 70847, 70849 (November 27, 2002).

The current fee schedule is accessible from: <http://www.uspto.gov/main/howtofees.htm>.

If the issue fee paid is the amount shown on the "Notice of Allowance and Fee(s) Due," but not the correct amount in view of the fee increase, a "Notice to Pay Balance of Issue Fee" will be mailed to applicant. In order to avoid processing delays associated with mailing of a "Notice to Pay Balance of Issue Fee," if the response to the Notice of Allowance and Fee(s) due form is to be filed on or after January 1, 2003 (or mailed with a certificate of mailing on or after January 1, 2003), the issue fee paid should be the fee that is required at the time the fee is paid. If the issue fee was previously paid, and the response to the "Notice of Allowance and Fee(s) Due" includes a request to apply a previously-paid issue fee to the issue fee now due, then the difference between the issue fee amount at the time the response is filed and the previously paid issue fee should be paid. See Manual of Patent Examining Procedure, Section 1308.01 (Eighth Edition, August 2001).

Questions relating to issue and publication fee payments should be directed to the Customer Service Center of the Office of Patent Publication at (703) 305-8283.

**DETAILED ACTION**

This Office action is in answer to the amendment filed June 2, 2003.

***Allowable Subject Matter***

1. Claims 14, 15, 24 and 25 are allowed.

With respect to claims 14, 15: in the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to provide a failure detection system for an energy storage cell of a multiple energy storage cell pack, the energy storage cell having a cell voltage  $V_{cell}$ , the system comprising, *inter alia*, an electrical circuit connected to the energy storage cell, and indicating a cell active condition when a cell voltage  $V_{cell}$  is above a threshold active voltage  $V_{active}$ , and indicating a cell inactive condition when the cell voltage  $V_{cell}$  drops below the threshold active voltage  $V_{active}$ , and the circuit including a voltage threshold device to set the threshold active voltage  $V_{active}$ . As noted here, and as described in the specification, the claimed invention allows actively monitoring and controlling of multiple interconnected cells of individual capacitors in an ultracapacitor energy storage cell pack.

With respect to claims 24 and 25: in the examiner's opinion, it would not have been obvious to a person of ordinary skill in the art to provide an active voltage limiting and failure detection system for an energy storage cell of a multiple energy storage cell pack, the energy storage cell having a cell voltage  $V_{cell}$ , the system comprising, *inter alia*, a first electrical circuit connected to and powered by the energy storage cell, the first electrical circuit drawing a significant amount of power from the energy storage cell when a cell voltage  $V_{cell}$  reaches a maximum voltage  $V_{max}$  to reduce the cell voltage  $V_{cell}$ , to stop drawing the significant amount of power to reduce the cell voltage  $V_{cell}$  when the cell voltage  $V_{cell}$  reaches a minimum voltage  $V_{min}$ , and to draw no power when the cell voltage  $V_{cell}$  reaches a shutdown voltage  $V_{shutdown}$ ; and a second electrical circuit connected to the energy storage cell and indicating a cell active condition when the cell voltage  $V_{cell}$  is above a threshold active voltage  $V_{active}$ , and to indicate a cell inactive condition when the cell voltage  $V_{cell}$  drops below the threshold active voltage  $V_{active}$ .

As noted here, and as described in the specification, the claimed invention isolates and remotely interrogates each cell independent of any other cell in the pack. By precisely identifying the location of

Art Unit: 2838

any failed cell, the failed cell can be quickly replaced without having to discard the entire pack or sequentially check each individual cell to locate a failure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Examiner Pia Tibbits whose telephone number is (703) 308-7305.
